

▶▶ Slight difficulty	The quality of the grasp is slightly diminished but grasping remains possible and efficient without compensation by other parts of the hand.
▶▶ Difficult, but remains efficient	The quality of the grasp is diminished but grasping remains possible and efficient with synergistic compensation by other parts of the hand.
▶▶ Difficult, not very efficient	Despite synergistic compensation by other parts of the hand, the quality of the grasp is significantly diminished. However, the grasp retains a certain usefulness.
▶▶ Inefficient or impossible	Despite synergistic compensation by other parts of the hand, grasping is inefficient or impossible with this hand.

				Difficult		Inefficient or Impossible
		Within Normal Limits	Slight Difficulty	Remains Efficient	Not Very Efficient	
Fine Grasp	Bipulpar / Ungual (sheet of paper / paper clip)	0	1	3	12	20
	Tridigital (pen)	0	1	3	12	20
	Pollici-latérodigitale (key)	0	1	3	12	20
Power Grasp	Hook (pail, briefcase)	0	1	3	12	20
	Cylindrical / Spherical (hammer / ball, bottle)	0	1	3	12	20
	Directional (screwdriver)	0	1	3	12	20

Total of Table A = _____ Points
