
S (km/h)	A and B (m)
30	50
50	100
60	150
70	200
80	250
90	300

S : Speed limit prescribed by the Highway Safety Code.

A : Distance between front escort vehicle and traffic control person.

B : Distance between rear escort vehicle and outsized vehicle.

Those distances may be increased to take into consideration the road configuration so that other drivers will perceive the signal well in advance and have sufficient time to react.
