

## OVERALL WEIGHTED EVALUATION

<b>Changes of Skin Color</b>	<b>Flat Scars</b>	<b>Faulty Scars</b>	<b>Changes to Form and Contours, Non-Cicatricial Alopecia</b>
Area of color slightly different from neighboring skin, apparent at 50 cm but not very apparent at 3 m, total area is $< 25 \text{ cm}^2$ and/or area of color very different from neighboring skin, apparent at 3 m, total area is $< 5 \text{ cm}^2$	$\left. \begin{array}{l} \\ \end{array} \right\} 0.5$ Total length is $< 10 \text{ cm}$	$\left. \begin{array}{l} \\ \end{array} \right\} 0.5$ Linear scars, total length is $< 3 \text{ cm}$ and/or plaques, total area is $< 2 \text{ cm}^2$	$\left. \begin{array}{l} \\ \end{array} \right\} 0.5$ Very slight disfigurement of the trunk, apparent at 50 cm but not very apparent at 3 m
Area of color slightly different from neighboring skin, apparent at 50 cm but not very apparent at 3 m, total area is $\geq 25 \text{ cm}^2$ and/or area of color very different from neighboring skin, apparent at 3 m, total area is $\geq 5 \text{ cm}^2$ but $< 25 \text{ cm}^2$	$\left. \begin{array}{l} \\ \end{array} \right\} 2$ Total length is $\geq 10 \text{ cm}$ but $< 25 \text{ cm}$	$\left. \begin{array}{l} \\ \end{array} \right\} 2$ Linear scars, total length is $\geq 3 \text{ cm}$ but $< 5 \text{ cm}$ and/or plaques, total area is $\geq 2 \text{ cm}^2$ but $< 5 \text{ cm}^2$	$\left. \begin{array}{l} \\ \end{array} \right\} 2$ Slight disfigurement of the limb, such as an amputation of 1 or 2 phalanges
Area of color very different from neighboring skin, apparent at 3 m, total area is $\geq 25 \text{ cm}^2$ but $< 25\%$ of the entire limb	$\left. \begin{array}{l} \\ \end{array} \right\} 7$ Total length is $\geq 25 \text{ cm}$	$\left. \begin{array}{l} \\ \end{array} \right\} 7$ Linear scars, total length is $\geq 5 \text{ cm}$ but $< 15 \text{ cm}$ and/or plaques, total area is $\geq 5 \text{ cm}^2$ but $< 25 \text{ cm}^2$	$\left. \begin{array}{l} \\ \end{array} \right\} 7$ Moderate disfigurement of the limb such as an amputation of 1 or 2 fingers, or 1 or 2 metacarpals
Area of color very different from neighboring skin, apparent at 3 m, total area is $\geq 25\%$ of the entire limb	$\left. \begin{array}{l} \\ \end{array} \right\} 20$	$\left. \begin{array}{l} \\ \end{array} \right\} 20$ Linear scars, total length is $\geq 15 \text{ cm}$ and/or plaques, total area is $\geq 25 \text{ cm}^2$ but $< 25\%$ of the entire limb	$\left. \begin{array}{l} \\ \end{array} \right\} 20$ Significant disfigurement of the limb such as an amputation of more than 2 fingers or 2 metacarpals
		$\left. \begin{array}{l} \\ \end{array} \right\} 40$ Extensive and unsightly scars, total area is $\geq 25\%$ but $< 50\%$ of the entire limb	$\left. \begin{array}{l} \\ \end{array} \right\} 40$ Severe and unsightly disfigurement of the limb as amputation at the wrist or forearm
		$\left. \begin{array}{l} \\ \end{array} \right\} 80$ Extensive and unsightly scars, total area is $\geq 50\%$ of the entire limb	$\left. \begin{array}{l} \\ \end{array} \right\} 80$ Severe and unsightly disfigurement of almost the entire limb such as the amputation at the arm
